

plusOne™

air pulsing arouser

instruction manual

product overview:

power button:

Press and hold the power button for 3 seconds to turn on. Press firmly to cycle through the 5 settings. Press and hold for 3 seconds to power off.

charging contact:

Attach magnetic charging cord to the charging contact.

how to charge:

1. The charging contact is a small metal circle located on the back of the device. Line up the charging cable with the contact.

2. The cable will magnetically attach into place. The power button LED will pulsate slowly to indicate charging.

special instructions:

Do not turn on while charging and/or cleaning. While charging the light will flash, the light will turn solid when fully charged. **Low battery alert:** Light flashes rapidly when battery is running low. Use only with 5-volt USB wall adapter (standard mobile phone charger). Use water based lubricant only.

cleaning:

Be sure to clean thoroughly before & after each use. Clean using a mild soap and warm water.

storage:

Store in a cool dry place separately from other sex toys; sex toys of different material can damage each other if left in contact.

quality:

This product is manufactured using body-safe silicone that is harmless to the human body; free from phthalates, BPA and latex.

warnings:

Discontinue use if there is any discomfort for you or your partner.

ways to use:

Warming up?
Hold the arouser's opening a few centimeters away from your clitoris to feel the gentle air pulse on its own (also nice if you're not the biggest fan of vibration).

Explore the sensations.
Gently rock the opening of the arouser around your clitoris – the movement exposes different sections of your clitoris to air pressure and vibration, creating a delightful sensation.

Ready to go full throttle?
Firmly press the arouser's opening into your pelvis, allowing it to hug your clitoris – creating a "seal" for the most intense sensation of all.

Want to switch things up?
Reverse the arouser's position so that the handle drapes over your labia and vaginal opening. This position allows you to feel vibration throughout your vulva while the air pressure stimulates your clitoris.

The wetter, the better.
Like most toys, the air pulsing arouser works better with lube. Apply a small amount of plusOne personal lubricant to the opening for the best performance. Check stores for our plusOne personal lubricant.

The battery shall be disposed in accordance with the local laws and regulations. If possible please recycle it. Users shall not take out or replace the battery by themselves; doing so may damage the product.

two year limited warranty:

Your new plusOne™ products carry a warranty against manufacturing defects for two years from the date of original purchase. plusOne™ will, at our option and upon submission of a valid proof of purchase within the warranty period, repair or replace the product free of charge.
