

# plus One<sup>®</sup>

personal stroker

instruction manual

## product overview

**3) external shell**  
durable external shell for optimum grip and control

**4) texture beads**  
for intense stimulation

**5) pleasure ribs**  
for the ultimate sensation

**1) vented storage case**  
storage case with vent holes to keep your personal stroker dry and free of bacteria

**2) internal sleeve**  
ultra-soft, skin-like internal material for a life-like feel

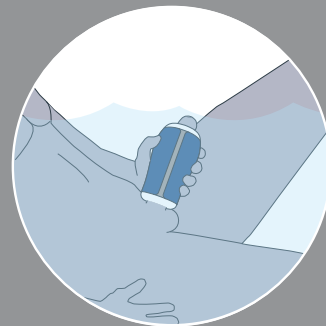

## ways to use

For best performance, apply a generous amount of plusOne hydrolube™ personal lubricant to the opening of either end of the internal sleeve. Use with water-based lubricant only.

Slowly insert yourself into the internal sleeve, and grip the flexible, external shell to your most comfortable size. Find your perfect stroke speed and feel free to slow down and explore what makes you feel good.

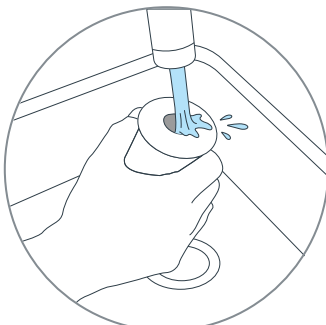

Enjoy your fully waterproof personal stroker in the bath or shower for the ultimate way to relax and unwind. Change hands and switch to the other opening to experiment with different sensations. Increase the speed as you get closer to climaxing.

## how to clean

Gently separate the internal sleeve from the external shell.

Carefully rinse with cold or lukewarm water, and mild soap. For a more thorough clean, turn the internal sleeve inside-out and wash.

After cleaning the inside and outside of your stroker, shake off excess water and leave the two pieces out separately to air dry. When the pieces are dry, put the internal sleeve back in the external shell and store in the vented storage case. A light coating of cornstarch on the internal sleeve can help maintain freshness, but is not required.

The battery shall be disposed in accordance with the local laws and regulations. If possible please recycle it. Users shall not take out or replace the battery by themselves; doing so may damage the product.

### two year limited warranty:

Your new plusOne® products carry a warranty against manufacturing defects for two years from the date of original purchase. plusOne® will, at our option and upon submission of a valid proof of purchase within the warranty period, repair or replace the product free of charge.
